

Subject :

The query of the determination of the year for random drawing for the inspection on proportionate basis of the property declaration by civil servants.

Description :

The “declaration year” shall be based on the day of declaration, not the day of submission of the declaration form. The base number for open drawing of lots at a specific ratio shall be based on the “declaration day”. If individual cases of declaration cannot be completed before the random drawing, these cases will be carried forward as an integral part of the base number of cases for random drawing of the next declaration year.
